PROFESSIONAL SUMMARY

Results-oriented Front-End Developer and Information Technology graduate with a robust foundation in modern JavaScript (ES6+), HTML5, CSS3, and responsive UI architecture. Hands-on experience in developing dynamic web applications, implementing DOM manipulation, and engineering reusable component frameworks. Currently expanding technical depth in React.js, Next.js, Express.js, and RESTful API integration. Adept at problem-solving, performance optimization, and collaborating effectively within software engineering environments.

TECHNICAL SKILLS

Frontend Stack:	JavaScript (ES6+), React.js, Next.js, HTML5, CSS3, Tailwind CSS, DOM API
Backend & Database:	Express.js, MongoDB, RESTful APIs, Node.js (Fundamentals)
Developer Tools:	Git, GitHub, VS Code, Vite

PROJECTS

Crave Club Premium Restaurant Web Application *React.js, Tailwind CSS, Lucide React, Vite*

- Architected a modern, single-page restaurant application using React.js and Vite, delivering fast load times and dynamic layout rendering.
- Designed reusable React UI components, custom hooks, interactive navigation menus, and fluid scroll animations to elevate user experience.
- Enforced mobile-first responsive layout structures with Tailwind CSS, ensuring pixel-perfect adaptability across desktop, tablet, and mobile displays.

Personal Developer Portfolio *HTML5, CSS3, JavaScript (ES6+), Git*

- Engineered a responsive personal portfolio to demonstrate frontend engineering capabilities, key software projects, and practical code samples.
- Integrated client-side interactive feedback and contact forms with custom JavaScript input validation handling.
- Optimized page performance and cross-browser compatibility following standard modern web standards.

Interactive Browser Logic Game *JavaScript (ES6+), HTML5, CSS3, DOM Manipulation*

- Built an interactive number-guessing browser game featuring dynamic state tracking, turn limits, and real-time DOM feedback.
- Structured clean, event-driven JavaScript logic to manage state transitions, input sanitation, and game reset cycles.

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT) 2019 – 2022
MSG-SGKM College, Mumbai Cumulative GPA: **7.9 / 10.0**

Higher Secondary Certificate (HSC) – Science Stream 2017 – 2019
Vikas College of Arts, Science and Commerce, Mumbai Maharashtra State Board

SOFT SKILLS

- Problem Solving & Debugging
- Teamwork & Collaboration
- Adaptability & Quick Learning

LANGUAGES

- English
- Hindi
- Marathi
